Subject: April Enviro call - please review updated bullets
Attachments: 4.4.19.docx

Peter holds monthly enviro stakeholder conference call and we've been asked to address topics in attached draft. We are providing several bullets for each action – public information. Please look at your applicable areas and let me know if this is ok/delete/what to add. Yellow highlights are where I need more info or confirmation this is ok. Can we be more specific than “later date” or is that still current language.

“EtO related actions”

Ex. 5 Deliberative Process (DP)

I would appreciate your comments/edits by tomorrow morning if possible.

Thank you,

KB
